

Giant African Snails

ESL Reading Worksheet — Level C | tahricteaches.com

Giant African snails are some of the **largest** snails in the world. They can grow up to 20 centimeters long. That is bigger than your hand! These snails come from East Africa. They have big brown and yellow **shells**.

These snails are very **hungry** animals. They eat over 500 different kinds of plants. They like fruits, vegetables, and flowers. They can even eat **concrete** walls because they need calcium for their shells.

Giant African snails are now found in many **countries**. People brought them as pets or food. But they can be **dangerous** to farms. They eat crops very fast and have many babies.

One snail can lay up to 1,200 eggs in one year. The babies grow very quickly. This is why they are hard to **control**. Many places are trying to stop them from **spreading**.

In some countries, people eat these snails as food. The snails have lots of **protein**. Scientists study them to find ways to **protect** farms. Giant African snails are truly amazing creatures!

A. Vocabulary

- | | |
|--------------------|-------------------------------------|
| 1. largest _____ | a. nations or lands |
| 2. shells _____ | b. moving to new places |
